

Foam

FITCO® Foam D-EPDM-250

FITCO®Foam D-EPDM-250 is a flexible EPDM-250 foam insulation sleeve with a closed cell structure. It shows a smooth surface and provides good weather and ozone resistance and also excellent resistance against water and chemicals. FITCO®Foam D-EPDM-250 can withstand high temperature vapors and has a good impermeability to gas.

Operating temperature: -50°C to +150°C
Standard color: Grey
Other colors on request

Description	Inner diameter (mm)	Outer diameter max. (mm)	Wall thickness (mm)
FITCO®Foam D-EPDM-250 10/28	10.0	28.5	9.25
FITCO®Foam D-EPDM-250 18/30	18.0	30.0	6.00

Packaging: Bar stocks.

Properties	Typical Value
Tensile strength	≥0.4MPa
Elongation	≥150%
Tear strength	≥1.5kN/m
Density	250Kg/m ³
