

Suction hose

FT-Suction hose PU ws

The technical values were obtained under the ambient temperature of +20°C. The test results include a maximum variation of +/- 5%. Information regarding the extraction of liquids of any kind, of water vapor, of moist media, and outdoor use must be requested separately if required.

Areas of application:

Extraction of air, dust and gaseous media, smoke, chemical industry, pharmaceutical industry, medical technology.

Operating temperature: -25°C to +85°C

Standard color: Grey

Description	Inner diameter (mm)	Outer diameter (mm)	Weight (g/m)	Bending radius (mm)	Wall thickness (bar)
FT-Suction hose PU 15,5	15.5	19	65	15.5	0.25
FT-Suction hose PU 25	25	31	160	25	0.45

Special sizes on request

Construction:

- Lightweight PU suction hose
- Reinforcement by plastic spiral
- Polyether polyurethane

Properties:

- Smooth inside, corrugated outside
- Highly flexible and kink resistant
- Microbe and hydrolysis resistant
- Oil and chemical resistant
- Very good abrasion and wear resistance
