

Braided hose

FITCOFLEX-I-ARA®

Not inflammable braided hose made from para-aramide with extremely high cut resistance and tensile strength.

Application:

High temperature and fluid resistance permit the usage in almost all car environments as e.g. engine compartment, interior, chassis, moist environment and underbody. For a higher protective effect, the sleeve could be double-braided.

Operation temperature:

-55°C up to +280°C

Standard color:

yellow

Description	Recommended range of application [mm]	
	(Ø min)	(Ø max)
FITCOFLEX-I-ARA 12	12	14
FITCOFLEX-I-ARA 14	14	16
FITCOFLEX-I-ARA 18	18	20
FITCOFLEX-I-ARA 22	22	24

Special sizes on request

Properties:

- Material: Para-Aramide fibres (protection fibres)
- Excellent mechanical crash-protection
- Very high tensile strength
- Very good media resistance
- Low weight, high flexibility
- Not inflammable
- 100% recycleable
